Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-21 rejected under 35 U.S.C. 102(b) as being anticipated by Canon Inc (JP 11150624).

With regards to claims 1-21, Canon Inc (JP 11150624) either explicitly or inherently teaches all of the claimed limitations which is evidenced by the fact that the present invention claims an image forming apparatus for printing images on recording sheets supplied from a particular paper cassette, including a plurality of paper cassettes for storing recording sheets respectively, memorizing a plurality of print types in a predetermined order from a highest priority to a lowest priority, memorizing a plurality of comparative print types which are to be compared with the plurality of print types respectively, and controller for selecting a first paper cassette that stores recording sheets suited to print an image and has a comparative print type of possible highest priority in the respective memory and selecting a second paper cassette that stores recording sheets suited to print the image and has a comparative print type to be compared with the print type of the first paper cassette in the second memory, and for selecting one of the first and second paper cassettes based on a predetermined

criterion as an ultimate paper cassette and printing the image on one or more recording sheets supplied from the ultimate paper cassette.

Canon Inc (JP 11150624) discloses a cassette selection method and device to facilitate a selecting operation of the recording paper despite increase of their types by generating the recording size information showing the recording paper sizes arranged in the order of designated priority and performing plural operations to select the optimum recording paper, based on the original image information and according to the priority of the recording paper sizes (See entire Abstract).

Response to Arguments

3. Applicant's arguments with respect to claims 1-21 have been considered but are moot in view of the new ground(s) of rejection.
